

US – MEXICO NEARSHORE

Metal Frame Manufacturer

U.S.–Mexico Nearshore Metal Frame Manufacturer

Innova Sourcing LLC combines U.S.-based project management and oversight with cost-competitive manufacturing from our facility in Torreón, Mexico.

We specialize in custom metal-frame furniture, delivering nearshore speed, quality, and flexibility without the long overseas lead times.

From a single prototype to full FF&E programs, we manage engineering, production, finishing, packaging, and logistics from start to finish.

Metal Frame Manufacturer

MISSION

To provide reliable nearshore manufacturing solutions for the furniture industry through scalable production, consistent quality, and responsive collaboration that supports long-term customer success.

VISION

To become a trusted manufacturing partner for U.S. companies seeking efficient, high-quality, and strategically located production solutions in North America.

What We Do

Precision Tube Cutting

Advanced CNC automated systems for exact tolerances in circular, square, and specialized tube profiles.

CNC Tube Bending

Multi-radius bending capabilities for complex furniture frames ensuring structural integrity and repeatability.

Precision Welding

Certified MIG and TIG welding processes for aesthetically flawless and high-strength metal joints.

Frame Fabrication

End-to-end structural construction for diverse furniture designs from prototypes to high-volume production.

Assembly & Packaging

Final quality checks, precision assembly, and custom export-grade packaging ready for your distribution network.

Laser cutting and sheet metal fabrication

Precision industrial solutions integrating multi-axis laser cutting with sheet metal fabrication and bending for intricate parts.

Advantages of Working With Us

Shorter Lead Times

Agile Collaboration

Reliable Logistics

Scalable Production

Industries We Serve

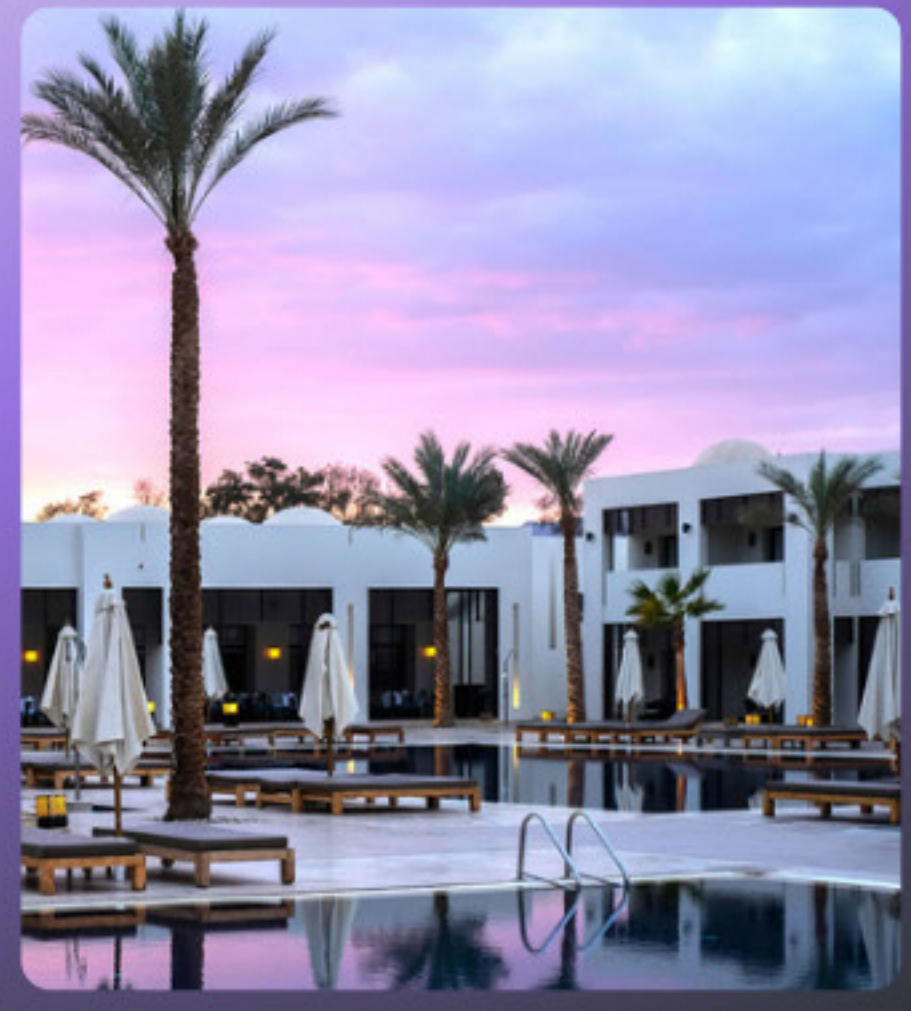

Student Housing

Durable, high-traffic metal frames for dormitories and communal living spaces.

Hospitality

Durable, high-traffic metal frames for dormitories and communal living spaces.

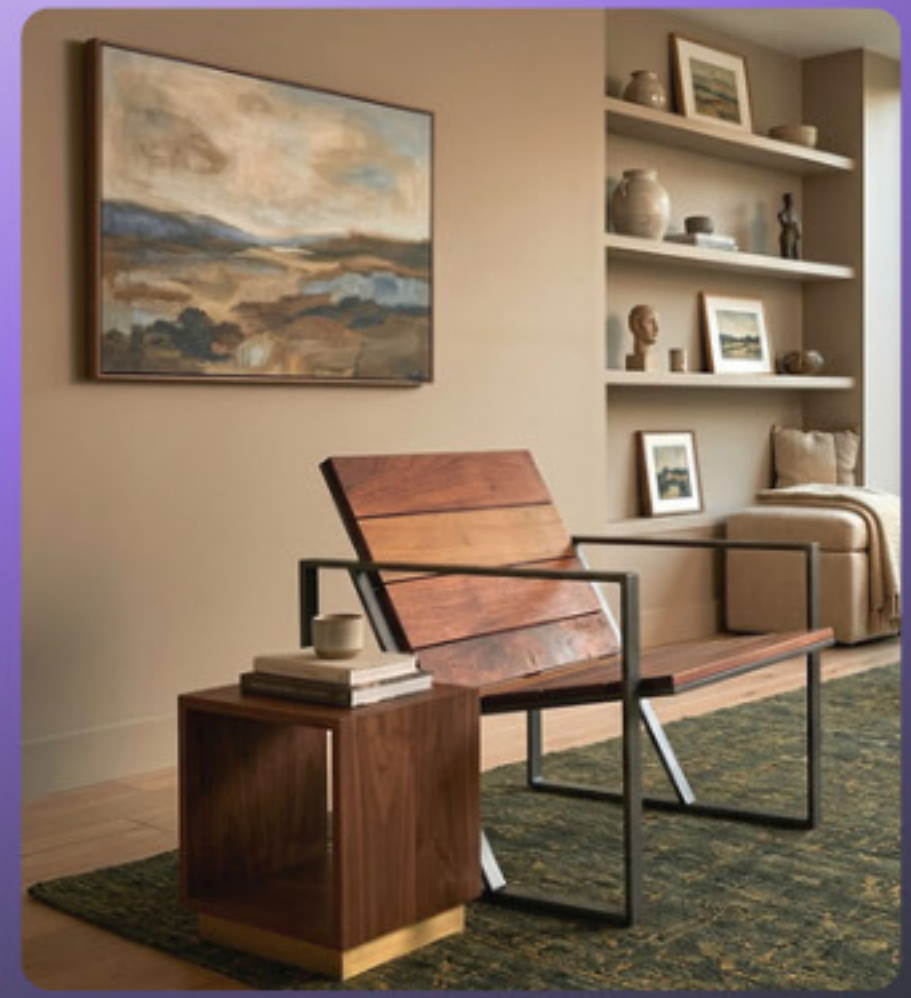

Corporate

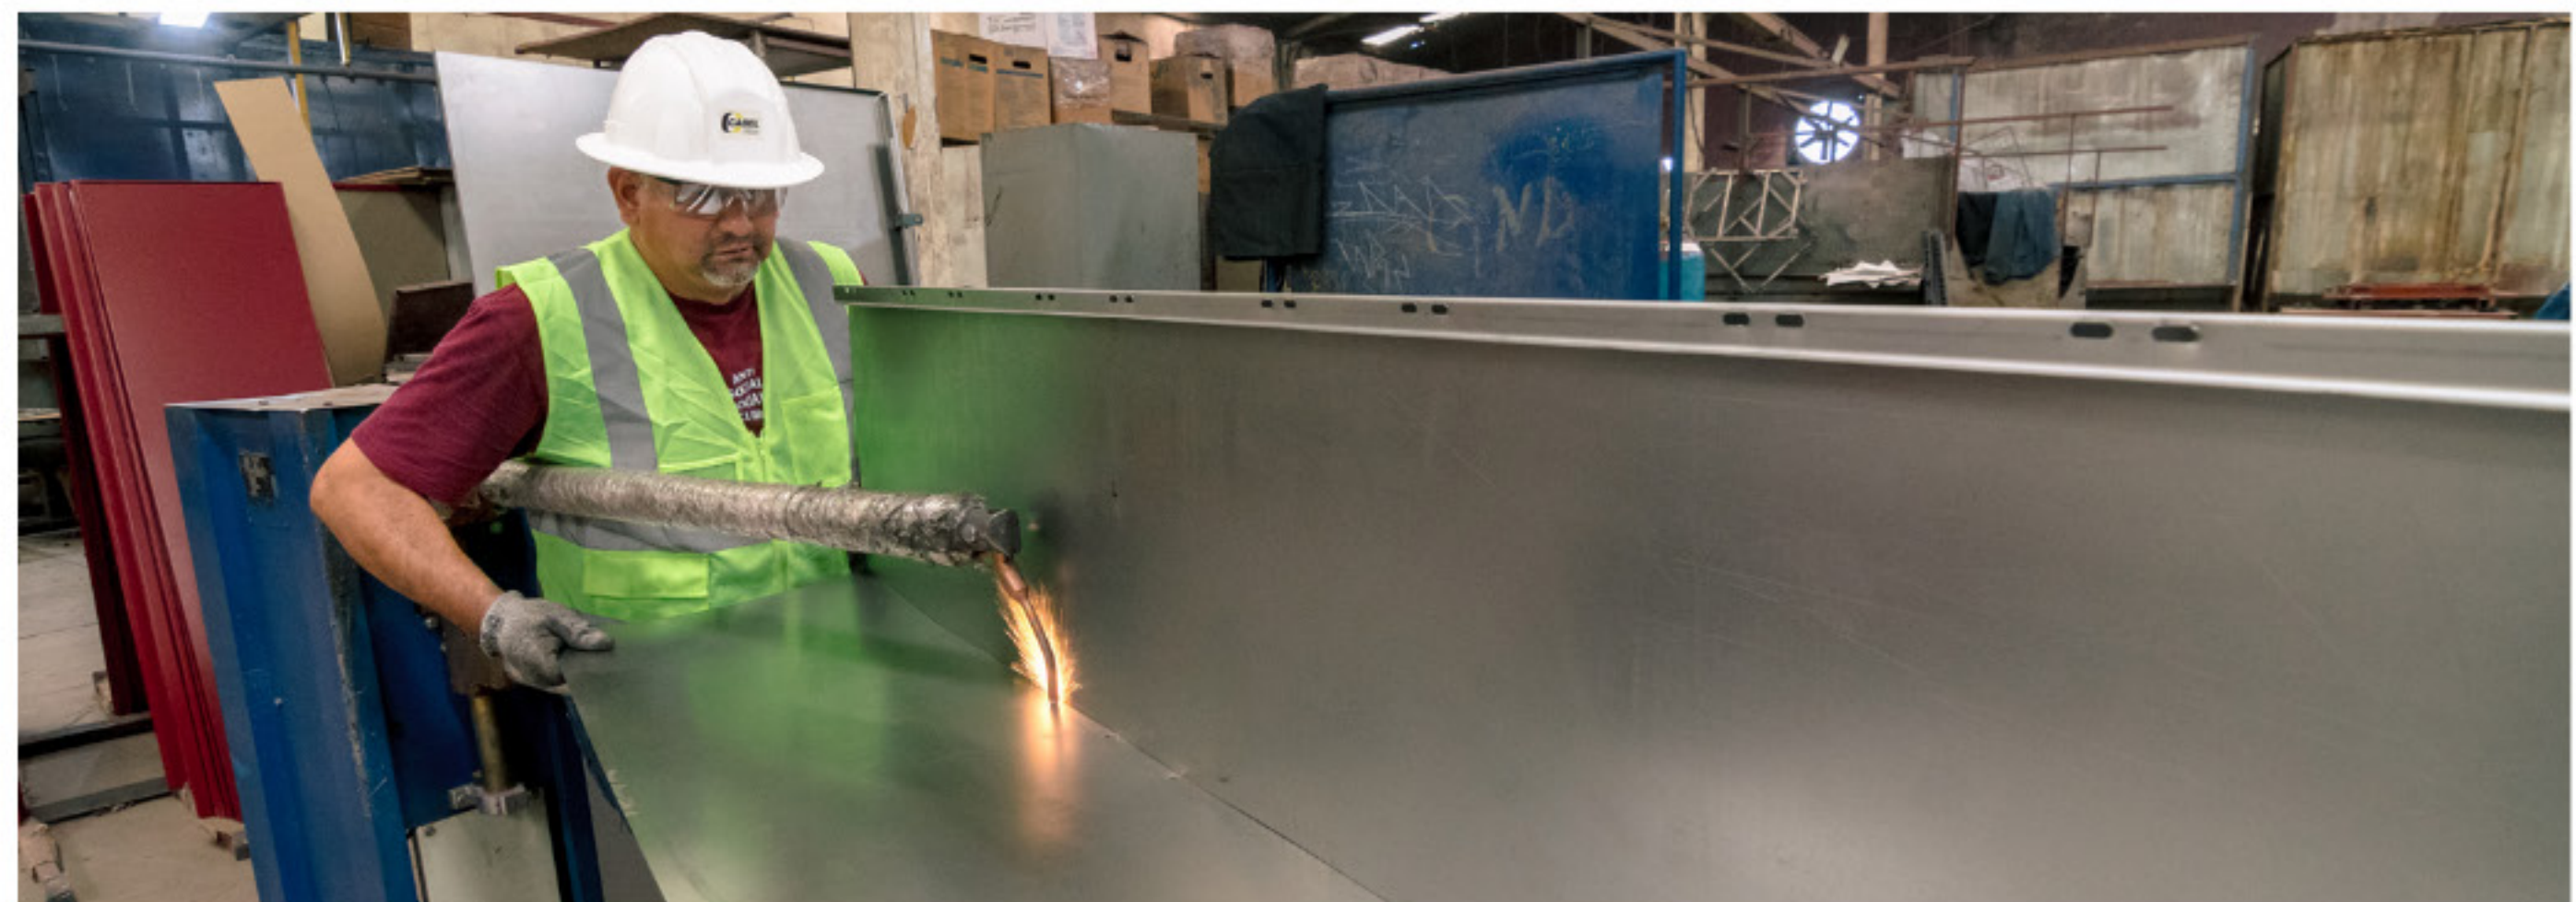

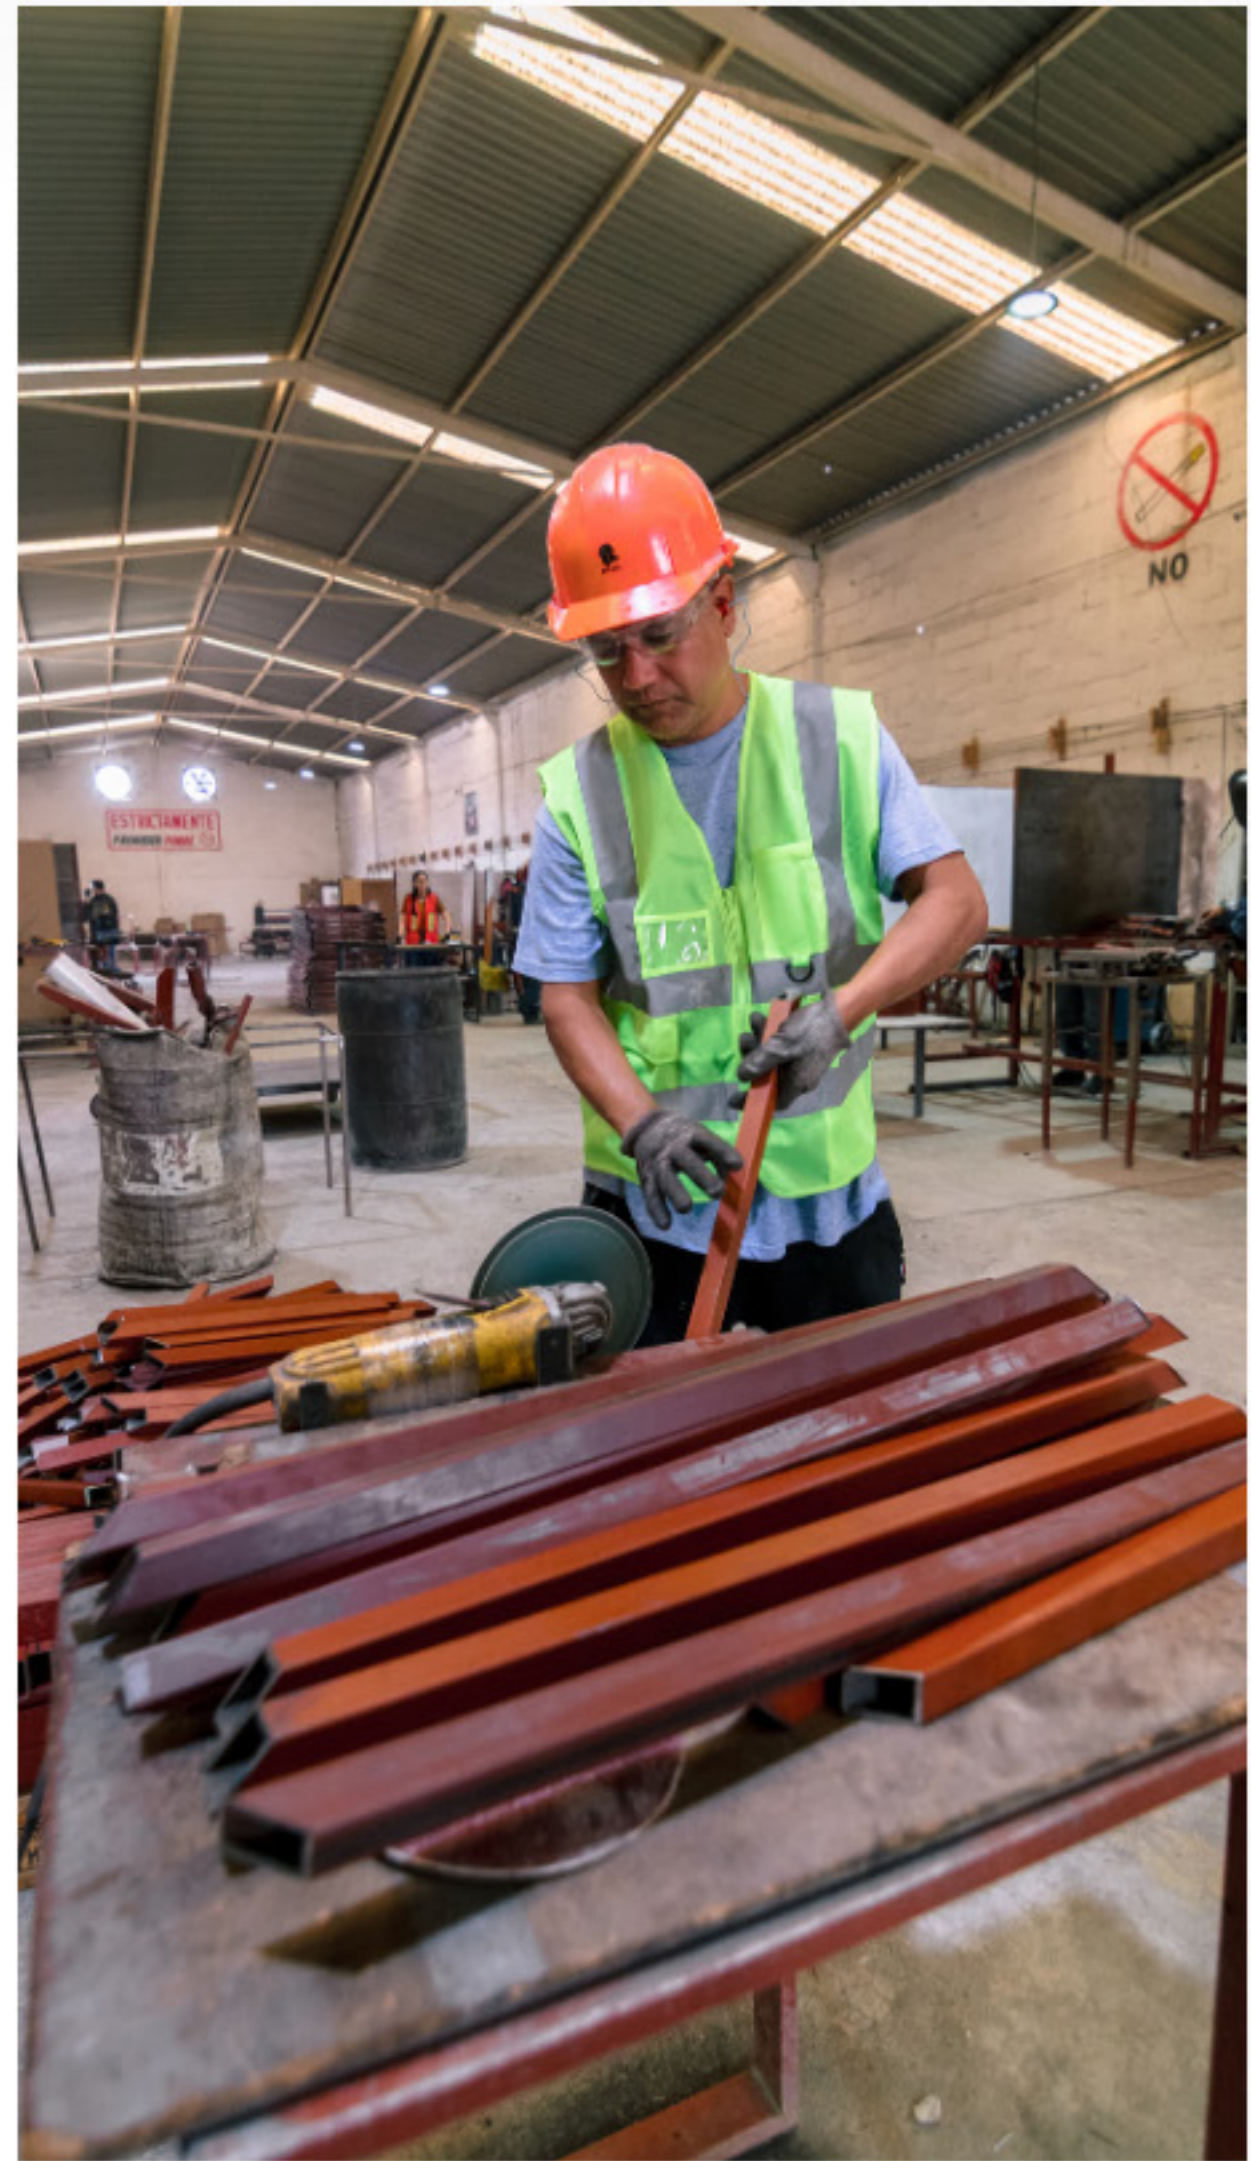

Scalable solutions for modern office systems and ergonomic work environments.

Residential

Custom residential frameworks combining minimalist aesthetics with everyday durability.
